The World Bodypainting Association was founded in Austria in October 2001. The association began as a result of the yearly World Bodypainting Festival which started in Austria. The **WBA focuses on networking artists and bodypainting interested people** and companies all around the world with different events, and education programs. Even though the goal of the WBA to promote bodypainting as an art form was reached years ago, **we connect creative minds to keep pushing limits.**

PRIZES & *THEME

THEME: Zodiac Signs and the Mystical Stars

This theme explores the timeless connection between astrology and the cosmos, where each zodiac sign carries its own symbolism, energy, and story. Artists are invited to transform the body into a living constellation, blending mythology, celestial patterns, and imagination. The result should evoke mystery and wonder - as if the universe itself is unfolding on the skin.
